**The joint exhibition 'Fenestra' unites three artists - Michelle Le Plastrier, Izzy Voodoo, and Zeke's Lunchbox - in a world building experiment. In Latin 'Fenestra' means "window", whilst in biology it describes a small opening, or pore, in a larger anatomical structure. 'Fenestra' taps into the artists' shared penchant for worldbuilding and visual narrative, and acts as their prompt to create a natural opening into their respective worlds. In a sense, each individual work represents a pore to the exhibition's body. Each Fenestra offers a glimpse into the artists' imaginary; vistas which are equal parts personal and interpersonal reflection.**

**Each interpretation of 'Fenestra' shines light on shared facets of human experience - the potential repercussions of our progress, our ever-evolving relationship with technology, the intimate realities of womanhood - all within the context of three distinct, artistically crafted narrative realms.**

*The development of FENESTRA was proudly supported by HOTA Home of the Arts, through HOTA's ArtKeeper program, Regional Arts Development Fund and funding from Yarra City Council small projects grant with special thanks to Tully Jugoe.*

*The Regional Arts Development Fund is a partnership between the Queensland Government and the City of Gold Coast Council to support local arts and culture in regional Queensland.*
